# The new Schutlok closing system. Producing without problems!

Schutte bagclosures, the market leader with dozens of years of experience in the field of bag closures. Based on a combination of acquired knowledge and the feedback from customers Schutte bagclosures developed a unique closing machine: the T4800.

The T4800 processes a new kind of T-Schutlok, a closure that has proven itself commercially over many years and is available in a variety of sizes.

# A closer look at the **T4800!**

Schutte bagclosures is the expert in the field of bag closures for various applications. The range of bag closures is very comprehensive and innovative.

In addition to a comprehensive range of bag closures Schutte introduces the T4800.

The T4800 is a versatile bag closing machine. For example, the speed can be aligned with your manufacturing process.

Together with the T4800 Schutte introduces the new, non-residue T-closure. This unique design makes a left or right hand flow possible in a single machine, which is due to the new, unique way of separating the closures.

## **Characteristics**

- High Speed bag closing machine
- Maximum capacity up to 4800 closures per hour
- Continuously adjustable speed
- Compatible with all packaging lines
- Suitable for left or right hand flow
- Operating and maintenance friendly design
- Easy integration into existing packaging lines

## **Extra components**

- Date coder
- Brush unit
- Reducing valve
- Double reel dispenser
- Production counter

## **Technical details**

- 230V (50Hz) or 110V (50/60Hz), on request
- Compressed air: 6 bar
- Finished in stainless steel
- High-Quality standard components

Brush unit expansion

# **Saving** on your closing costs begins with the T4800.

The T4800 complies with all international requirements,  
and fits perfectly into the needs of the market.

Additionally, the T4800 is a good alternative for the limited choice  
of bag closing machines.

A fast, flexible, and durable machine that is usable virtually anywhere and meets  
all future requirements for the automatic closing of bags.

**Make a no obligation appointment today and get informed  
about how you can save on your closing costs!**
