

# Schutlok Dispenser XK

**The Schutlok dispenser XK is the ideal solution for closing a bag and putting a date code on the product.** This Schutlok dispenser XK is completely made of stainless steel. Easy to operate and very solid. The Schutlok K is a reclosable closure with a small label for a date code or a production code. The Schutlok K is available in different hole sizes K32, K44, K59, depending of the size of your bag. The COLOP stamp is a universal brand for stamps. The stamp operates manually and the ink cartridges are easy available at every stationary shop all over the world. This Schutlok dispenser XK is easy to clean with water and detergents, because it is completely made of stainless steel . The compact design makes it a perfect machine to be used behind the counter in your shop or in small production areas. The easy way of operating makes it a comfortable and solid solution for closing your product. Another great advantage is the fact that this a mechanical dispenser. No electricity or compressed air is needed.
